INSULATING BRICK
(Visit www.hwr.com for detailed technical data)

GREENTHERM 23 LI

Is a 2300°F insulating firebrick. GREENTHERM 23 LI provides excellent insulating values and is resistant to CO disintegration. (Density 35 pcf)

GREENTHERM 26 LI

Is a 2600°F insulating firebrick. GREENTHERM 26 LI provides excellent insulating values and is resistant to CO disintegration. (Density 50 pcf)

GREENTHERM 28 LI

Is a 2800°F insulating firebrick. GREENTHERM 28LI provides excellent insulating values and is resistant to CO disintegration. (Density 56 pcf)

GREENTHERM 30 LI

Is a 3000°F insulating firebrick. GREENTHERM 30 LI provides excellent insulating values and is resistant to CO disintegration. (Density 65 pcf)

Note: Greentherm Brick are made by Harbison Walker in China
